01 PROFESSIONAL PROFILE

Passionate Python enthusiast experienced in NumPy, Pandas, Tkinter, and Django. Skilled in efficient code development, prioritizing tasks, and meeting deadlines. Committed to continuous learning and staying up-to-date with industry trends.

02 EDUCATION

- **Graduation (2019-23)**
  B.Tech in Computer Science
  AKTU Ist-Division

- **Intermediate (2018-19)**
  CBSE Board | Ist-Division

- **High School (2016-17)**
  CBSE Board | Ist-Division

03 PROJECTS

- iPost: A feature-rich web application for blogging, enabling users to create and share engaging content with a user-friendly interface. Built with Python, Django, and modern frontend technologies.
- FitnessFreak: A Python and Django-based project focused on fitness enthusiasts, allowing users to share their workout goals, track progress, and receive personalized activity suggestions.
- PyBank: A Python and Tkinter-based application designed for managing customer accounts and transactions. Built with a user-friendly interface, it enables admin users to create and manage customer accounts, track transactions, and perform various administrative functions. The application provides a secure and efficient way to handle financial operations within a bank setting.

04 WORK EXPERIENCE

Internship Experience at Forelsket Software
Duration: Jan 2023 - Jun 2023

Position: Python and Django Web Development Intern During my internship at Forelsket Software, I collaborated on Python and Django-based web applications. I focused on designing responsive front-end interfaces using HTML and Bootstrap. My tasks included user authentication, database management using Django's ORM, and contributing to project documentation. This experience honed my development skills and provided a practical understanding of web application creation.

Training Experience at Cetpa Training Institute
Duration: Aug 2023 - Dec 2023

Currently engaged in a dynamic internship at Cetpa Training Institute, I'm honing my skills as a Python Full Stack Developer. The program, focusing on Python, Django, and web development, provides hands-on experience through real-time projects. Sponsored by TCS, this collaboration not only validates the quality of the training but also exposes me to industry standards. Under the mentorship of seasoned professionals, I am gaining both technical proficiency and insights into collaborative development. This internship is a pivotal step in my journey, equipping me to contribute meaningfully to real-world projects and shaping me into a well-rounded professional.
